

*"You never forget your first Nutsack"*

## **We offer several varieties of Nuts from "Naked" to "Spicy" at MonkeyBug Gifts!**

The crew at Nutsack Nuts want their nuts to do more than taste good...they want to make an impact. To honor his father who passed away from cancer, Nutsack Nuts founder Bill Sutherland donates a portion of revenue each year to [The Damon Runyon Cancer Research Foundation](#) in his name.

Bill thinks cancer should not have the power to wreak such havoc. "We must find a way to prevent this devastating disease from claiming our loved ones' lives. Will we find a cure? I can't say for certain, but without research, the odds seem slim. Thus, I am doing my part by allocating a portion of my sales to cancer research."
