

Since the very beginning, our primary mission has been to provide a sustainable source of income to our artisan partners—lessening their vulnerability and enabling them to break the cycle of poverty. Malia Designs' products are made by fair trade producer groups that employ underprivileged people in Cambodia – primarily at-risk women and the disabled.

Inspired by the beauty and warmth of the Cambodian culture and people, Malia Designs was created to *Carry a Cause*. We help create long term employment for talented makers in Cambodia with the production of our eco-friendly bags (most are created using recycled and repurposed materials) and accessories. Every purchase helps fund anti-trafficking efforts and supports small designers. We've donated over \$160,000 to anti-trafficking organizations in the US and Cambodia!
