

Freedom Studios

Founded in 2020, Freedom Studios was started to create beautiful bath and body products as well as to provide meaningful employment for survivors of human trafficking.

Survivors can heal in the most practical way, with an empowering job through Freedom Studios. This helps get them back on their feet financially and reintegrate into the workforce.

Freedom Studios partners with the non-profit, Call to Freedom, who helps trafficking survivors by providing safe housing, counseling and treatment. Freedom Studios offers meaningful employment for the women Call to Freedom assists.

Each product created in the studio is lovingly made by a survivor.
