

# HEADBANDS

one purchased = one donated *of hope*

Here at Headbands of Hope, we believe that headbands are a great way to restore confidence in kids during hospital treatment. That's why at Headbands of Hope, for every item sold, a headband is donated to a child with an illness.

We've even started a program where the kids can actually design and create their own headbands.

We also want to be a part of the solution: a cure. That's why we take nominations for childhood illness charities to be a beneficiary for our headBAND Together weeks where we donate 10% of sales to the organization.

## Present Day

Headbands of Hope is carried in thousands of stores across the world and has been supported by dozens of celebrities like Lea Michele, Lauren Conrad, Kelsea Ballerini and many more!

Headbands of Hope is still ran by a small group of women who have no intentions of slowing down the brand's impact. They have big plans on the horizon with celebrity collaborations, licensing partnerships with the NBA and an expansion of the product line coming early Spring 2022.

More importantly, the brand has donated **ONE MILLION** headbands to every children's hospital in America and 22 countries.
