

At Nina Designs our mission is to “Inspire Beauty and Creativity while Caring for People and our Planet”.

This mission informs everything we do, including our commitment to philanthropy. We strongly believe that businesses have a responsibility to contribute to the world in a positive way. Every year we make donations to support organizations that help people achieve their potential and create a sustainable future. We also support nonprofits working to defend the environment or to improve animal welfare.

Each year we choose one organization for a major donation, but to celebrate our 40th anniversary in 2023, we are giving \$1000 to a different cause each month. In addition to the monthly \$1000, we also gave \$1,000 to [Maui Relief](#) + \$500 [SheCan](#) + \$500 [Community of Writers](#). Find out more at: <https://www.ninadesigns.com/about-us/philanthropy>.

One Order = One Tree

For every order we ship, we will plant a tree. We have partnered with [Trees for the Future](#) to offset all of the carbon associated with our office operations and the orders we ship out to customers. We used carbon calculators available online to estimate our annual carbon use and then added a healthy amount of padding to be conservative. While it is difficult to find accurate data, we believe this program will also cover the carbon emissions of the silver mined to produce our products

We are proud to announce that our Thai production is made with 100% Recycled Sterling Silver!!!

As of June 2022, every item we produce in Thailand is made from 100% post-consumer recycled sterling silver. Post-consumer sterling silver includes metal retrieved from discarded electronics and other industrial materials, as well as used consumer items.

Eco-friendly information

- Product Materials: Nontoxic, Plastic-free, Recycled, Reusable, and Vegan
- Production: Carbon neutral, Ethically sourced, Fair trade, and Sustainably sourced
